Hiring Team

Al-Futtaim Private Company LLC – Al-Futtaim Automotive (BYD)

Riyadh, Saudi Arabia

Re: Application for Technical Support Engineer – BYD | Job Requisition ID: 177934

Dear Hiring Team,

I am writing to express my strong interest in the Technical Support Engineer position for BYD at Al-Futtaim Automotive. As a Mechanical Engineer with over 8 years of progressive experience in fleet operations, complex troubleshooting, and preventive/corrective maintenance—currently supervising mechanical maintenance at SAPTCO (Saudi Public Transport Company)—I am well-equipped to serve as your highest technical authority and primary interface with the manufacturer.

My background directly aligns with the technical governance, diagnostic depth, and capability-building requirements of this role:

- **Advanced Diagnostics & EV Systems Expertise:** In June 2026, I completed the specialized Yutong International Training Center program in China, gaining hands-on expertise in Battery Electric Vehicle (BEV) systems, high-voltage (HV) battery architectures, electronic control systems, and advanced diagnostic tool operation. This directly supports modern New Energy Vehicles (NEV) and EV lineups like BYD.
- **Workshop Leadership & Technical Resolution:** At SAPTCO, I routinely lead technical teams through root cause analysis (RCA), complex electrical and mechanical troubleshooting, and performance optimization to minimize downtime and eliminate repeat failures.
- **OEM Standards & Quality Assurance:** Backed by my professional certifications including **PMP, RMP, and CMRP** (Certified Maintenance & Reliability Professional), I maintain strict adherence to safety, quality, and OEM operational standards.
- **Coaching & Capability Building:** Throughout my career, I have successfully trained and mentored over 200+ engineers and technicians, fostering a culture of technical excellence, structured documentation, and continuous improvement.

Based in Riyadh and ready for immediate contribution, I am eager to bring my maintenance discipline, EV technical foundation, and dedication to brand reputation to Al-Futtaim Automotive's aftersales operations for BYD.

Thank you for your time and consideration. I look forward to discussing how my technical background can support your workshop capability and warranty governance.

Sincerely,

Ahmed Aboud Ahmed Mohammedalhassan

Mechanical Engineer | CMRP | PMP | RMP
